

A CELEBRATION OF ART AND MINDS

WOLFE CENTER

Wolfe Center was founded in 2004 by a group of community members and is Napa County's only program dedicated exclusively to helping our community's teens and their families prevent and treat substance abuse disorders. Since opening, Wolfe Center has served over 4,000 Napa County teens with Substance Abuse Prevention and Treatment Programs. Please join us to celebrate the incredible work of the Wolfe Center founders in creating this important and innovative program.
